MEASURING

Finding the perfect size isn't always easy. The fit of your clothes depends on many things, including the cut, fabric, styling and even the undergarments you're wearing. By following our measuring tips we hope to find you the best possible fit. It is suggested that you measure more than once as your posture changes when you move and sometimes affects the measurement you take.

1. Measure yourself wearing underwear, do not measure over clothing.
2. Stand straight and keep both feet on the floor.
3. Make sure the tape measure is kept level.
4. Ask a friend to help you take your measurements.

Our ranges are designed with layering in mind. If you buy a jacket for your body size you can be sure you will be able to fit a top and light sweater underneath. When selecting a jacket size make sure you allow for extra garment layers underneath.

CHEST CIRCUMFERENCE

Measure all the way around, taking the tape approximately 2.5cm from the pit of the arm, around the fullest part of the chest.

WAIST CIRCUMFERENCE

Measure all the way around, taking the tape around the natural waist (the narrowest part of your waist).

LOW HIP CIRCUMFERENCE

Measure all the way around, taking the tape around the fullest part of the bottom.

STANDARD FIT SIZE CHART

Sizing allows comfortable wear, worn slightly loose.

Over garments allow for other garments to be worn underneath.

MEN'S BODY SIZE CHART

BODY MEASUREMENT	GARMENT SIZE										
	XS	S	M	L	XL	2XL	3XL	4XL	5XL	6XL	7XL
